## Summary

I am a recent Information Systems graduate from the Indonesian Computer University with a passion for learning. I have gained experience in JavaScript, React.js, Vue.js, Laravel, and PHP through various college projects. Additionally, I have conducted system analysis, identifying requirements and proposing solutions for different projects. I design website interfaces, mobile apps, logos, and posters using Figma, Adobe Illustrator, and Adobe Photoshop. Currently, I am developing my skills in 3D modeling with Blender and have experience in video editing using CapCut and Premiere Pro.

## Work Experience

Telkom Indonesia – BandungAug 2023 – Dec 2023

UI/UX Specialist Internship

- Designed 5 virtual reality user interface projects and redesigned the SmartEye website, improving user experience by 75% with VR and making the site more engaging and visually appealing.
- Collaborate with the team to craft a streamlined VR user flow for enhanced user experience clarity.
- Develop a comprehensive design system for each virtual reality (VR) application and website.
- Create design assets to meet company needs, including logos, posters, and other visual materials.

## Education

Universitas Komputer Indonesia – Bandung2020 - 2024

Bachelor Degree in Information System, GPA: 3.61/4.00

- Programming Languages:** Learned algorithms and programming languages such as JavaScript, PHP, Java, C#, and others, with a focus on both object-oriented and structured programming.
- Database Management:** Basic knowledge of database management, familiar with MySQL and fundamental systems for effective data handling.
- System Analysis:**
  - Analyzed the current system at PT Arwindo Ghani Utama to identify inefficiencies and design a database.
  - Conducted a system analysis of the purchasing system at Massa Coffee Shop to enhance operational workflow.
  - Analyzed the workflow of the information system for the website at PT Duta, focusing on optimizing the system to increase user experience.

## Organization

Himpunan Mahasiswa Sistem Informasi UNIKOM – BandungJan 2022 – Nov 2023

Information, Communication & Media Division Staff

- Coordinator in publications and documentation at the HIMA SI Thanksgiving event.
- Making posters for SIMICUP Competition and the HIMA SI Anniversary.
- Collaborate with the team to design the Instagram feed for HIMA SI.
- Designing a zoom background for UNIKOM's 2022 Character Building Seminar.
- Creating name tags for all HIMA SI members.
- Video editing for a campus social event.
